1st February 2021

Dear Dr. Chaudhuri,

Thank you for submitting your revised manuscript "Enhanced substrate stress relaxation promotes filopodia-mediated cell migration" (NM19124277B). It has now been seen by the original referees and their comments are below. The reviewers find that the paper has improved in revision, and therefore we'll be happy in principle to publish it in Nature Materials, pending minor revisions to satisfy the referees' final requests and to comply with our editorial and formatting guidelines.

We are now performing detailed checks on your paper and will send you a checklist detailing our editorial and formatting requirements in about a week. Please do not upload the final materials and make any revisions until you receive this additional information from us.

Thank you again for your interest in Nature Materials Please do not hesitate to contact me if you have any questions.

Sincerely,

Amos Matsiko, PhD
Senior Editor
Nature Materials

Reviewer #2 (Remarks to the Author):

In this revision, the authors have satisfactorily addressed the issues raised in the previous version. I now support its acceptance for publication.
